SECTION II - FINANCIAL MATTERS

A. APPROVAL TO FUND THE ENGINEERING DESIGN FOR ADDITIONAL CHILLED WATER CAPACITY AT THE CENTRAL HEATING AND COOLING PLANT

Air conditioning for the new Liberal Arts Center will require 350 tons of chilled water produced from the central chilled water and heating plant located at the Physical Plant Service Center. Design engineers from the firm of Biagi, Chance, Cummins, London and Titzer, Inc. recommend the installation of an additional 1,000 tons for a total of 1,350 tons of chilled water capacity to the central plant. The additional capacity would serve the capital construction and renovation projects planned for the next 3 - 5 years. If the project is approved, the cost of approximately \$550,000 would be funded as a part of the construction projects for the renovation of the Science Center Laboratories, completion of the Health Professions Center Lower Level, and construction of a future Multi-Purpose Classroom Building. Approval is needed now for the design costs. The work would be bid and constructed at the same time as the Liberal Arts Center Project.

Approval to fund the engineering design for additional chilled water capacity at the central heating and cooling plan at a cost of \$30,900 is recommended.

B. APPROVAL OF AUTHORIZING RESOLUTION FOR THE LIBERAL ARTS CENTER INTERIM CONSTRUCTION FINANCING

Approval of the following resolution is recommended.

WHEREAS, the Board of Trustees has approved the schematic plans and the proposed scope of work for the construction of the Liberal Arts Center; and

WHEREAS, the Board of Trustees wishes to proceed with the construction of the Liberal Arts Center; and

WHEREAS, the interim construction financing plan may require final approval and closure before the next scheduled meeting of the Board of Trustees in May, 1997;

NOW, THEREFORE, BE IT RESOLVED that the Finance Committee is authorized to review and approve the interim construction financing plan and report to the Board at its meeting in May, 1997.

C. REPORT ON RENOVATION OF THE SCIENCE CENTER LABORATORIES AND COMPLETION OF THE HEALTH PROFESSIONS CENTER LOWER LEVEL

A report will be presented on the renovation of the Science Center laboratories and completion of the lower level of the Health Professions Center. It is recommended that the Chairman appoint a Construction Committee, comprised of the members of the Finance Committee, to review initial schematic plans for these projects and to report to the Board.

Approval of the appointment of a Construction Committee to review initial schematic plans for the renovation of the Science Center laboratories and the lower level of the Health Professions Center is recommended.

D. APPROVAL OF PURCHASE OF TEMPORARY CLASSROOM/OFFICE BUILDING

To provide additional faculty office space, plans have been developed to place a temporary building south of the Science Center and west of the existing temporary classroom building. This building will be assembled using portable units and will provide office space for 26 faculty, 2 clerical/support staff, and 2 student workers, as well as restrooms and ancillary facilities. The building will be completed by fall 1997 for use by faculty who currently share single office space, new faculty, and faculty who will be temporarily relocated

during the renovation of the Science Center. The purchase cost of the building will be approximately \$195,000.

Approval of the purchase of a temporary classroom/office building is recommended.

E. REPORT ON THE UNIVERSITY CENTER ADDITION PROJECT
