**So what do we  
do now????**

# Some Basics

- ▶ Students have been given access to modify plans
  - ▶ Students may have more than one plan
  - ▶ Only advisors may LOCK a plan
  - ▶ A locked plan cannot be modified by a user who does not have access to change the LOCKED flag.
  - ▶ For LOCKED plans, the SAVE button is disabled and the user will only be able to save their changes as a new plan.
- 

# Review a Saved Plan

- ▶ After selecting the Plans tab, open the saved Plan by double-clicking
  - ▶ Default view is the Compact View
    - This view shows only basic information by term
    - May be printed
  - ▶ Plans will not go to 100% due to GPA requirement
-

# Edit View

- ▶ The default view shows the first two terms with all others collapsed.
- ▶ Collapse all terms and check the number of hours per term
  - Make sure students are meeting requirements as appropriate
  - Make sure students did not mistakenly add a huge number of hours in a single term.
- ▶ When finished, expand by clicking on the 'electrified I'

# Run audit against plan

- ▶ Completion of University degree requirements
    - Total number of hours
    - Hours at 300-/400-level
  - ▶ Completion of Core 39
    - Look for duplicated prefixes (WOK vs BS)
  - ▶ Completion of major
  - ▶ Completion of minor/concentration/track
  - ▶ Look for duplicated coursework that has fallen into General Electives or Not Counted
-

# Tracking

- ▶ If a class was completed in or prior to the planned term, and at least the minimum grade was earned (if the requirement has a minimum grade), the requirement will be On-Track.
  - ▶ If the requirement was completed in a later term, did not meet the minimum grade or was not completed at all, the requirement will be Off-Track
- 

# Tracking

- ▶ If a student is not enrolled or withdraws from a course on the plan in the current term, a warning will appear.
  - ▶ If a student does not enroll in a planned course for the future term, a warning will appear.
  - ▶ If a student fails a course or does not meet the minimum requirement, the student is Off-Track.
- 

# WARNING!!!

The screenshot shows the Ellucian Degree Works interface for a student named Sara. The page displays the student's plan for Fall 2014, which includes a warning for BIOL 141. The interface is viewed in a Windows Internet Explorer browser window.

# Questions:

- ▶ How do you add a minor/double major/different AS–BS to the plan?
  - If no plan with the combination has been submitted, the student will need to complete the plan.
  - USE THE AUDIT for needed courses; must be declared.
  - May want to start with one plan, add another plan, combine.
  - If there are common combinations, ask that departments submit a four–year plan.

# Questions:

- ▶ Will the system ever catch pre-reqs?
  - This enhancement will be available in the next release.
  - As soon as we can catch our breath, we will be looking at this upgrade.

# Questions:

- ▶ Will the system ever automatically delete dual credit/AP/transfer classes from the plan?
  - No, such courses are handled just like course repeats. Always be sure to check the NOT COUNTED section of the Plan Audit.

# Questions:

- ▶ Will the system ever know if classes are only available in fall/spring?
  - Yes, this feature is available; however, only a very few courses have been designated as fall only/spring only. With additional input from the departments about offerings, we can enter this information into DegreeWorks. Options include:
    - Every fall
    - Every spring
    - Every other fall
    - Every other spring
    - Etc.

# Questions:

- ▶ Will the system ever know which part of the Core is tied to a specific class and change that automatically? Or does it matter if it is changed in the plan?
    - If the core attribute is noted on the plan, we can add it. Unfortunately, not all plans had the attributes noted.
    - If a specific course is required for a program, then typically we did not include the attribute.
- 

# Questions:

- ▶ Do we know when summers will be fully operational?
  - They are available now.

# Questions??

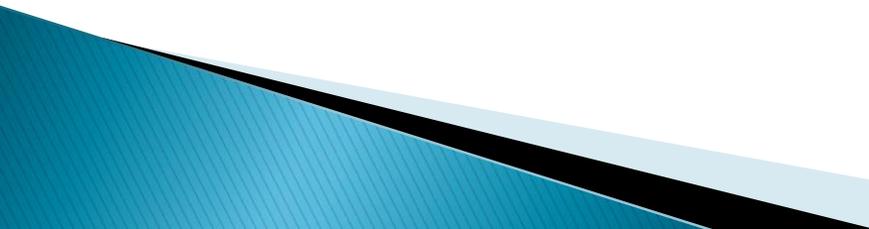

# Suggestions for Orientation

- ▶ When you meet with a student, select a Plan Template.
  - ▶ Add the courses for the first term.
  - ▶ Save, but do not Lock.
  - ▶ Students will then develop their 4-year plans in UNIV 101 in the fall.
- 

# What's Next???

- ▶ Currently scribing program modifications forward for fall 2015.
  - ▶ Continue working on refining current plans
  - ▶ Continue working on matching DegreeWorks audits with DARS audits – Grad Checkouts
- 

# What's Next?

- ▶ Create new templates as plans are provided
    - Plans with placements other than what is required
    - Plans with common major/minor combinations
  - ▶ Moving transfer articulation to Banner
  - ▶ Scribe backward for previous catalogs
    - Our goal is to go back to 2006 by the end of next year
    - We will let you and students know when they can move to DegreeWorks
  - ▶ Hope to be completely off DARWin by the end of 2015
- 

# What's Next??

- ▶ The next upgrade of DegreeWorks includes some nifty features for the Plans:
  - Calendar view: Allows viewing of the Compact View with fall and spring terms shown side by side
  - New Notes view shows all notes in expanded mode.
  - New Audit view of the Plan shows a side-by-side view of the Audit and the Plan displayed in Calendar view; allows for light editing with drag-n-drop functionality (from audit to plan)

# What's Next??

- ▶ Within the next two?? years, we hope to move to Banner XE, which will provide enhanced registration options, including registering from the Plan.
  - ▶ This will be a MAJOR upgrade and will, once again, require input and patience!
- 

# Hang In THERE!!!

- ▶ DegreeWorks is a definite improvement over the DARS system in use
  - ▶ USI is moving forward with enhanced tools to improve academic advising and student persistence/success.
  - ▶ By working together, we will create a system that provides accurate, timely information to help students reach their academic goals.
-
