Requestor Guide

Non-Catalog Transactions

The Requester Guide (New User Interface)

This document provides a condensed overview of the BuyUSI Requester Process. It will demonstrate with short text descriptions supported by screen shots for each step explained.

Creating Transactions: Non-Catalog

Non Catalog: A non-catalog transaction is a transaction issued to a vendor existing in Banner but not found as a catalog in BuyUSI

STEP ONE:

- Obtain a quote/estimate or back-up to support your purchase.

Quotation Thresholds: (Non-catalog Transactions)

\$24,999.99 and under:

1 quote is required

\$25,000.00 and over:

3 quotes are required or Sole Source/Single Source form should be utilized.

- Save the document so that you can attach it to your transaction later in the process

STEP TWO:

Non-Catalog Item

The Requester creates a Non-Catalog Item by selecting the "Non-Catalog Items" option under the Search Bar on the Shop tab. A Non-Catalog Item allows the Requester to create an item that is not provided in the catalogs.

STEP THREE:

The Requester searches for the Supplier:
Type in the name of the supplier then click on the  icon.

Query Results will populate:

New Non-Catalog Item
To add a non-catalog item you need to select the supplier first.

1. Select Supplier:

Promark X  6 record(s) found

Supplier Name	GL Code	Address	Contact Name	Contact Email / PO Email	Contact Phone	Action
Promark	000000794	2017 N. Bedford Ave. Evansville, IN, 47711, United States	Amy Graff	Procureserv@usi.edu	812-426-1323	Select
Promark International Inc	000536142	1268 Humbrecht Cir Bartlett, IL, 60103-1631, United States	None None	Procureserv@usi.edu	None	Select
Promark International Inc	000536142	1268 Humbrecht Cir Bartlett, IL, 60103-1631, United States	None None	Procureserv@usi.edu	None	Select

Click on the "Select" tab under "Action" for the supplier you wish to purchase from.

If vendor does not exist in BuyUSI, please contact Procurement Services Help Desk at: 1982 or 1601.

STEP FOUR:

Enter the product detail's required fields (Item/Service, UOM, Qty, and List Price) to create the item and 'Add to Cart'.

This information should come from the quote you obtained from the supplier.

- If you have the MFP/Provider number or part number go ahead and include it.

- All will print on the Purchase order that is sent to the supplier.

2. Add Item

* Item/Service:	<input type="text" value="Comfort Colors Red Polo Shirts"/>	MFG/Provider:	<input type="text" value="G-RD-148"/>
* UOM:	<input type="text" value="EA"/>	MFG/Provider Part #:	<input type="text"/>
* Qty:	<input type="text" value="52"/>	Catalog Item #:	<input type="text"/>
* List Price:	<input type="text" value="3.50"/> USD	UPC:	<input type="text"/>
		CAS Number:	<input type="text"/>

➔

Click add to cart once all required fields are filled out

Continue the above steps for each line needed on your order-including freight.

STEP FIVE:

Cart

The cart icon shows how many items are currently in the requestor's cart.

Click the cart icon to view and check out

- "Pending Transaction(s)" is the equivalent of "Checkout" in the previous interface

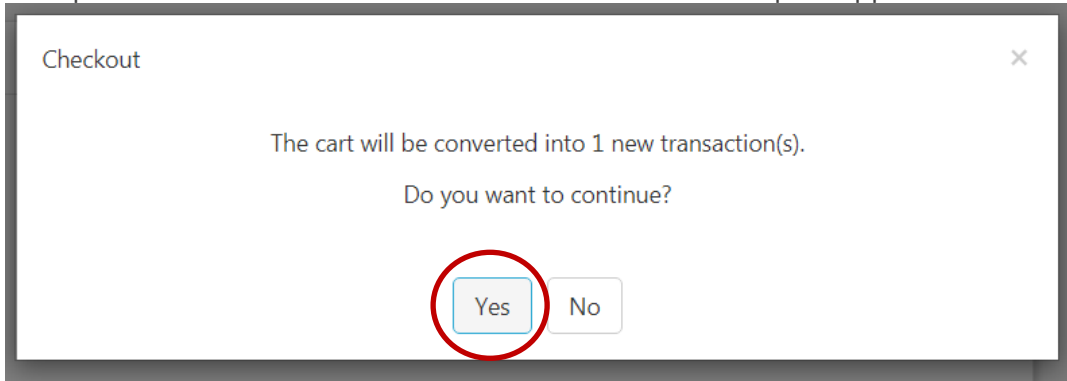

The Requester can edit the quantity or delete items.

The paper icon will change from grayscale to blue, indicating that there is note:

- ◆ External notes print on the PO that the vendor receives
- ◆ External attachments are sent via email to the vendor with their PO copy
- ◆ Internal notes and attachments remain in BuyUSI. These are used for internal communication.

7. View workflow Details

The workflow will generate after the order is validated. The requestor will be able to see who will be reviewing and approving their transaction. If any transaction validation rules are triggered, more information will be listed under the System Note. Once the condition is resolved, the transaction can be re-validated for approval.

Hit Request Approval to move the transaction into the approval queues:

A date stamp and time will be applied after each approval.

"Active" Status means that the transaction is currently in that approval queue.

"Pending" Status means that the queue is next for approval once the queue above it has been approved.

If a transaction is rejected, that status is shown as well and remains until approval is granted.

Once all approvals have been obtained, Procurement will turn the transaction into a Purchase order.

A Banner purchase order number is generated for the order. Purchase order numbers begin with the letter "P".

Non-Catalog orders are emailed by Procurement to the vendor.

Catalog orders are sent electronically through the eProcurement system to the vendor.

The requester will receive an email notification when the release occurs.
