Objectives

The purpose of the conference is to prepare health professionals to implement effective care coordination and case management strategies in their professional practice and in their organization. After attending, attendees will be able to implement effective care coordination strategies for a variety of clients.

At the conclusion of this conference you will be able to:

1. Discuss the current state of healthcare reform
2. Relate changes in healthcare delivery to the professions of care and case management
3. Discuss the implementation of the case management process in a variety of healthcare settings
4. Identify care management issues and trends in your practice setting
5. Identify current treatment strategies for selected medical disorders
