

APRIL 24, 2025

PEDIATRIC SANE

INTENSIVE

This session is a day-long intensive for registered nurses, advanced practice providers and physicians that provide care to pre-pubescent patients after sexual abuse. This course will include online pre-course work (6 hours). This course will offer a comprehensive review of pediatric anogenital anatomy, normal and abnormal variants, the medical forensic examination process, forensic technique and evidence collection procedures, non-acute medical examinations for child sexual abuse patients, documentation responsibilities as well as developing a plan of care and appropriate referrals. The course also features several case studies and mock scenarios.

Indiana nurses interested in applying for funding assistance can do so here:
